

# Dinosaur Theme

A dinosaur theme can be very successful because children are often intrigued and interested in learning about dinosaurs, which makes it a great unit to integrate learning in many areas.

## Language & Literacy

### Books

#### **Dinosaur Bones**

by Bob Barney

#### **Dinosaur Stomp**

by Paul Stickland

#### **Dinosaurs, Dinosaurs**

by Byron Barton

#### **Five Little Dinosaurs**

by Will Grace

#### **Oh My Oh My Oh Dinosaurs!**

by Sandra Boynton

#### **Good Night, Dinosaurs**

by Judy Sierra

#### **Dinosaurumpus**

by Tony Mitton

#### **Danny and the Dinosaur**

by Syd Hoff and Aïcha Fofana

#### **Bones, Bones, Dinosaur Bones**

by Byron Barton

#### **How Does a Dinosaur...series**

by Jane Yolan

#### **Dinosaurs Roar, Butterflies Soar!**

by Bob Barner

#### **Dinosaur Bones**

by Alike

#### **Dinosaur Roar!**

by Paul and Henrietta Stickland

#### **Ten Terrible Dinosaurs**

by Paul Stickland

#### **If the Dinosaurs Came Back**

by Bernard Most

#### ***The Dinosaur Alphabet Book***

by Jerry Pallotta's Alphabet Books

### Activities

Read ***The Dinosaur Alphabet Book (by Jerry Pallotta's Alphabet Books)*** and go on an **Alphabet Dinosaur Hunt** around the room. Before reading the story cut 26 dinosaur shapes from cardstock or construction paper, and program them with the letters from the alphabet and hang them around the classroom. After reading the story ask the kids to join you on a dinosaur alphabet hunt. Find the letters as a group or have the children work in groups or pairs to find all the letters in the alphabet. For older children provide them with a master sheet that has the entire alphabet printed on it, on a clipboard, and have them mark off the letters as they find them. Leave them up and children can continue to find letters on their own throughout the unit.

## **Songs, Poems, & Finger-plays**

### Dinosaur Stomp

I can stomp like a dinosaur look at me  
I can walk like a dinosaur look and see  
I am big and I stomp  
And my feet go clomp clomp  
I can stomp like a dinosaur  
Stomp stomp stomp

(Have kids stomp around the room while you repeat the rhyme together, then ask them what else dinosaurs might do? Jump, crawl, kick, eat, and have them make up appropriate actions)

Write the action words the children come up with on a piece of chart paper so they can see them in print. Sound them out as you print them. Discuss how these are "doing words" called verbs as the children actually "do" them.

## **Math & Number Concepts**

**Sorting Game-** Do some dinosaur sorting with dinosaur counters or dinosaur pictures; sort them by appearance, or meat eaters and plant eaters.

**Matching Game-** Make some dinosaur matching cards with dinosaur stickers or clip art found on the Internet.

**Dinosaur Count-** In small groups, play a counting game where children have to pick a dinosaur card with numbers on them and then count out that many bones from the excavation site. Use our **Dinosaur Dig Pattern Page** from the **Theme Enhancements Page** to create a counting game. Print enough copies of the dinosaur shapes to have enough for the numbers one through ten and cut out a bunch of the bone shapes to spread out in the excavation site. (Make an excavation site using your sand table or simply fill a small plastic storage container with sand and bury the bones in it.)

**Measure Dinosaur Bones-** Get some facts from the internet on how long certain dinosaur bones actually were, then help the kids see how big that real is by measuring them out with yard sticks and tape measures. Do the Dinosaur Dig Science activity and encourage them to measure the bones they find with a ruler.

## **Art**

### **Dino Sponge Painted Scene**

*Supplies:* Dinosaur sponges, tree sponges, large sheets of construction paper, paint.

*Directions:* Let kids create a dinosaur scene using the sponges and paint. \*\*you could also use rubber stamps or stencils instead of paint and sponges. Have children tell you a story about their picture (transcribe it), display their pictures and stories together on a class bulletin board.

### **Dinosaur Hats-**

*Supplies:* Paper plates, elastic cord, green tempera paints, sponges for painting.  
*Directions:* Cut the paper plates in half and staple them together in a row so they look like the plates on the back of a stegosaurus. Attach the row of plates to one full paper plate to be used as the base of the hat. Attach a piece of elastic cord to the full paper plate to make a band that will go around the child's chin and hold their dinosaur hat on their head. Have the children sponge paint them with different shades of green tempera paint using the sponges. Allow them to dry.

### **Dramatic Play**

**Dinosaur Habitat-** Set up a dinosaur dramatic play area with boxes painted to look like rocks and set out lots of artificial plants. Have the children make dinosaur hats from the art activity and allow them to wear them in the dramatic play area.

### **Music & Movement**

Play the game *Dinosaur Tag...* one person is the T-rex. When T-rex tags someone they become extinct. When all the dinosaurs are extinct then the game starts again with a new T-rex.

### **Science & Sensory**

**Dinosaur Dig-** Bury plastic dinosaurs in the sand table, give kids small paintbrushes to use to excavate the dinosaurs. Talk about when the dinosaurs lived and other dinosaur facts, extinction is a big new word to learn. Ask the children what you would find if they were really digging for dinosaurs... bones, called fossils. Depending on the age group you could talk about fossils too.

**Have children keep "Dinosaur Dig Journals"**- they can draw pictures of the bones they find, write words for describing dinosaurs, and other details such as length of bones they have measured, etc.

### **Blocks & Building**

Add plastic dinosaurs to the block & building area!

### **Technology**

Dino Train Games - <http://pbskids.org/games/dinosaur/>

Koo Koo Kanga Roo Dinosaur Stomp Video-

<https://www.google.com/search?q=dinosaur+stomp&ie=utf-8&oe=utf-8>

### **Cooking & Snacks**

Dinosaur "animal" crackers, chocolate milk!

Dino Dig Pudding... Let kids excavate fruit chewy Dino's from the tar pits...  
(Chocolate pudding)

### **Bulletin Boards**

**“We Dig Dino-mite Work!”**- Display children's Dino pictures and stories on a class bulletin board. \*Use a dinosaur footprint to identify each creator and attach it to the bottom corner of each child's piece of art/story.
